## DISCLAIMER

ICEDOGE as it is described in this conceptual paper, is not a licensed, unlicensed, or exempted financial or payment service of any sort and in any jurisdiction, including but not limited to the project, the token, the website, smart contracts, and any apps.

Any language used in this Whitepaper, on the website, or inside the app is solely meant to serve as a basic guide; it has no bearing on the terms' actual or legal meanings in regulated or financially related contexts.

The ICEDOGE smart contracts are open-source, security audited, permanent, and not modifiable in any way. Furthermore, it is a fully decentralized project with shareholders, promoters, marketers, managers, and experts in the cryptocurrency niche. This Whitepaper solely does not constitute a contract or other type of contractual agreement, nor does it constitute an offer, invitation, or solicitation, to invest in ICEDOGE or to purchase or otherwise use its ICEDOGE tokens with the expectation of profit in any way.

Any ICEDOGE user certifies that they have obtained the necessary technical, administrative, regulatory, and legal advice before and after accessing and/or reading this Whitepaper, the website, and using any portion or element of ICEDOGE.

They also acknowledge that there is an inherent high risk associated with accessing, purchasing, or using any type of blockchain and/or cryptocurrency system, token, platform, software, or interface, including ICEDOGE.

## INTRODUCTION

ICEDOGE is a full-fledged community token designed specifically to transfer income into the defi ecosystem and safeguard a crucial component of the ecosystem.

For the community and charities, community tokens are a big source of money. However, ICEDOGE intends to provide more by creating a blockchain ecosystem that self-propagates for hyper growth using Ethereum to provide access to additional material and events that make the blockchain valuable.

## WHAT MAKES ICEDOGE TRULY DIFFERENT?

### No Transaction Tax

Many cryptocurrency projects charge transaction taxes, which entail the project taking a portion of the tokens that are transferred, sold, or purchased. Many projects utilize this to secure long-term funding for their endeavor, particularly when the tokens' intrinsic value is low.

While others contend that it's beneficial for stopping users from engaging in several smaller buys and sells to capitalize on price volatility, the problem is that it can significantly affect the number of tokens users receive.

### Why Zero Transaction Tax?

We believe that value should come from the project itself rather than solely from people trading the token. ICEDOGE doesn't employ transaction taxes, because we don't want consumers to lose money when they enter (or leave) the ICEDOGE ecosystem because that ecosystem is at the heart of the entire ICEDOGE ethos.

## RISKS

The Company believes the following key risk considerations to be significant regarding the trading and/or use of the ICEDOGE token. This list is not exhaustive. All additional information in the Whitepaper should also be considered, and participants are advised to consult their professional advisers about these risk factors (including their financial, accounting, legal, tax, or technical advisers or experts).

The following are the risks of losing access to ICEDOGE Tokens as a result of misplaced private key(s), mishandled custody, or mishandled participation: The purchase, holding, and disposal of ICEDOGE Tokens all require the use of a wallet. The participant understands that he is accountable for setting up the Wallet with a third-party provider to hold ICEDOGE Tokens as well as for taking reasonable security precautions to safeguard the wallet.

As a result, if the required private key(s) connected with the Wallet holding ICEDOGE Tokens are lost, the ICEDOGE Tokens and any other cryptocurrencies and/or tokens will also be lost. Furthermore, the Participant's ICEDOGE Token could be stolen by any third party that has access to such private key(s), including through the Participant's Wallet login credentials.

Furthermore, ICEDOGE Tokens may also be lost as a result of any mistakes or issues with the Wallet the Participant uses to receive and keep ICEDOGE Tokens, such as the Participant's own inability to properly maintain or use the Wallet or caused by the Participant's selection of a third-party provider for the Wallet.

## HACKING RISKS AND SECURITY FLAWS

Denial of service attacks, Sybil attacks, spoofing, smurfing, virus Hacking risk and security holes: Hackers or groups of hackers may undertake denial-of-service attacks, Sybil attacks, spoofing, smurfing, virus assaults, and any other similar events that could have an impact on ICEDOGE Tokens and the services the Company may occasionally supply.

The possibility that the Website, the ICEDOGE Tokens' source code, the Smart Contract, or any related software or infrastructure include security flaws: The Smart Contract, the Website, or the ICEDOGE Tokens could all contain unintentional bugs or vulnerabilities that prevent users from using them or cause them to lose their ICEDOGE Tokens.

ICEDOGE Tokens may experience unintended or unforeseen effects as a result of updates and revisions. Low or no liquidity risk or risk of not listing: The Company makes no guarantees or assurances regarding exchange service providers and acknowledges that exchanges may be under uncertain governmental jurisdiction.

In relation to those transactions, users, including the participant, may be the victim of fraud and failure. There is no assurance that a vibrant secondary market will emerge or persist for ICEDOGE Tokens.

In contrast to bank accounts or accounts with financial institutions, ICEDOGE Tokens are not protected unless the participant purchases private insurance specifically for that purpose. The loss of ICEDOGE Tokens is not covered by any public insurance.

Risks associated with Internet transmission include issues with hardware, software, Internet connections, and other technologies that ICEDOGE Tokens depend on. These risks are associated with the use of ICEDOGE Tokens. When using ICEDOGE Tokens or the website, these errors could lead to communication breakdowns, errors, distortions, or delays.

## RISK OF PRICE FLUCTUATION

Even for experienced cryptocurrency traders, the ICEDOGE Token's quote can change, making it difficult to model and predict future market behaviour. The ICEDOGE Token's value in the market may be impacted by changes in the native cryptocurrencies connected to the internal operations of the networks on which the token is deployed.

The Participant must fully understand the risks associated with price variations in the cryptocurrency market, as well as the fact that cryptocurrencies continue to experience large price swings that are outside the Company's control and are primarily determined by external or market factors.

The Participant is also aware that the value of their ICEDOGE Tokens may fluctuate, leading to a partial or complete loss of their investment. Added dangers The Participant understands and agrees to the inherent risks involved with ICEDOGE Tokens, including but not limited to risks related to money laundering, fraud, exploitation for illegal activities, and any other unanticipated risks.

The Participant should not purchase, keep, or use ICEDOGE Tokens if any of the risks mentioned in the terms are unacceptable to them or if they are too complex for them to understand. [MDG3] YOU WAIVE YOUR RIGHTS BY ACCEPTING THESE TERMS AND CONDITIONS AND PARTICIPATING IN THE ICEDOGE PRESALE. YOU AGREE THAT YOU WILL HAVE NO ACTION, CLAIM, JUDGMENT, OR RIGHT OF REPAIR AGAINST ICEDOGE. IF YOU ARE UNCERTAIN ABOUT ANYTHING IN THIS WHITE PAPER OR IF YOU ARE NOT PREPARED TO LOSE THE MONEY YOU SPENT PURCHASING ICEDOGE TOKENS, WE STRONGLY URGE YOU NOT TO PURCHASE ANY ICEDOGE EYES COIN.

# 01 ABSTRACT

## DREAM BIG, START SMALL, BUT MOST OF ALL START.

### Welcome to ICEDOGE

ICEDOGE was created with the sole purpose of being a decentralized meme project with clear objectives. It is a digital currency that allows the verification of transactions and the maintenance of records by decentralized system that uses cryptography, rather than a centralized authority.

Currently, the max supply of the token is 1 billion, and its primary functionality is in its usage reward mechanism. ICEDOGE is all about fast growth, because there is no time.

### \$ICEDOGE TOKEN

An Ethereum - based meme token that encourages and supports the project's sustainable, wide acceptance and decentralization by offering a particular reward connected to users' transactions with decentralized wallets.

### \$ICEDOGE SWAP

For all active transactions users get a \$ICEDOGE reward that is granted to their decentralized wallets only. The main objective of this is to foster a healthy distributed network and community usage. This means that the more \$ICEDOGE is actively used, the more rewards are granted.

### \$ICEDOGE EMERGENCE LAUNCH

In a situation where we have difficulty selling out the token, we will launch earlier than targeted. Thereafter, users will be able to claim the tokens into their wallets on our websites after the presale is concluded.

### \$ICEDOGE STORE

A store operated by a nonprofit organization without owners or stockholders, where \$ICEDOGE holders may proudly support the pleasure of the \$ICEDOGE in the real world and where all profits go toward the expansion, upkeep, and development of the project.

# 02 VALUES

## COMMUNITY

ICEDOGE is backed by a team of cryptocurrency experts, marketers, developers, strategists and designers who understand the crypto niche inside and out. Our team boasts of impressive experience on some of the biggest crypto projects.

Developers | Tech Exerts | Designers | Project Lead  
Social Marketers | Influencers and Management

They are handpicked for success.....

## TRANSPARENCY

ICEDOGE is a digital currency that allows the verification of transaction and records by a decentralized system that uses cryptography rather than a centralized authority. We encourage free, open and frank communication within the community of supporters. The aim of this is to ensure that everyone is informed and can participate in the growth process of \$ICEDOGE.

## TENURE

The decentralized community fosters long-term development of the ecosystem which will result in real use cases, greater rewards, and a popularity beyond any temporary trend.

## NO TAX FEES

\$ICEDOGE does not charge any tax fee at all. There are no miners on the network, and users can complete transactions without needing any serious computing power.

## MAINTAIN VALUE THROUGH BURNING

\$ICEDOGE burning process is a community effort. Burning small portions of the coin can help maintain the value.

## 03 TOKENOMICS

NAME: ICEDOGGE

TYPE: ETH

PLATFORM: ETHEREUM

DECIMAL: 18

SYMBOL: \$ICEDOGGE

### ICENOMICS

The token that users purchase will be split, and by design this will provide an upward price pressure for the token. This will allow us to keep developing the platform and provide a source of utility for tokens.

Furthermore, a regulated percentage of the tokens spent will be burnt completely. This means that for every token spent on \$ICEDOGGE transaction, the approximate will be removed to consistently reduce the supply of the tokens.

## 04 ECOSYSTEM

### GROUP OF DOGE'S

The community is where our strength is. The bigger, more active, the more engaged, the greater the pace at which we achieve our goals. Our community will be rewarded with regular give aways in tokens and rewards. Plus, the community will always hear any news first.

### \$ICEDOGGE SWAP

There are over 1,500 different types of cryptocurrencies. \$ICEDOGGE provides an adaptive swap interface that allows users to exchange their tokens quickly using the website. For every active transaction, a \$ICEDOGGE reward is granted to holders' decentralized wallets to foster a healthy community usage.

### \$ICEDOGGE WALLET

On our website a wallet is devised that stores your ICEDOGGE keys and allows you to access your coins. The wallet contains a public key (Wallet Address), and your private keys which you need to authenticate cryptocurrency transactions.

# 05 ROADMAP

AT ICEDOGE we have laid the foundation and our team is working assiduously at building the platform and ecosystem. Furthermore, we are building the trading experience of the future today, and with our team's proven capabilities, users and investors can be confident in the achievement of the milestone we have set below.

## PHASE 1 - Walk

- Website Development
- Social Media setup
- Whitepaper
- \$ICEDOGE token presale launch
- Influencers and promoters
- Security Audit
- Icedrops

## PHASE 2 - Trot

- Listings on CMC and/or Binance
- NFT Launch
- Staking for added liquidity.
- More Social Media Setups
- Foreign Marketing
- Trust Wallet Logo

## PHASE 3 - Gallop

- CEX Listing
- NFT Staking
- Partner with NFT Market Place
- Add Classic Validator
